#### WASHINGTON.

Sixteen millions of dollars are available for the reclamation of arid lands of the West, and the fund is growing rapidly. It is predicted that in a few years it will be ten times as large.

The monthly crop report of the Agricultural Department shows the condition of corn on September 1 was 80, against 84.4 September 1, 1902; spring and winter wheat combined 74.7, against 80 on September 1, 1902.

Proceedings already have been started toward bringing about the extradition of Louis Stern, the Government Contractor who fled to Canada after being indicted by the Federal Grand Jury. He is expected to offer stubborn resistance to extradition. The annual report of Pension Commissioner Eugene F. Ware shows the number of pensioners on the rolls now to be less than one million, and the total amount paid out in pensions to date in excess of three billions of dollars. He declares that such dimensions that it will have a rein ten years the pension burden will have ceased to be noted.

### **GREAT PLAN OF DEVELOPMENT**

Territory as Valuable as Louis iana Purchase, Will Be Added to Nation's Resources by Arid-Land Redemption.

The Republic Bureau, 14th St. and Pennsylvania Ave. Washington, Sept. 10.-The question of Western land irrigation, which for years has been a great issue with the arid States and, at the same time, the shuttle cock of Congress, at last has assumed

spectable hearing by all parties,

For the cause of irrigation no less than \$16,000,000 now is available for the States where surveys have been approved by the Government. Two years ago, when Congress provided \$2,000,000 for an irrigation dam in the river and harbor bill, that slight concession was hailed by the advocates of irrigation as an "entering wedge," a decided factor in the longmooted question as to whether Congress should appropriate money for irrigation

in the States and Territories. In this short time note the result. From the sale of these lands under the irrigation act there is a fund of \$16,000,000 available for the purpose of reclamation

of desert lands. Those who know the general practice of Congress predict that the amount will grow from \$16,000,000 to ten times that amount.

No issue before the American people is of greater interest. The reclamation of the ario lands means the addition to the resources of the United States of a territory as valuable as that of the great Louisian Purchase, which is to be commemorated in St. Louis in 1904.

FUND IS GROWING RAPIDLY. As the Government has reached the point where it will donate \$16,000,000 for the purpose of irrigation, then it is probably only a question of time when the amount expended for this purpose will equal that of the river and harbor bill. W. A. Richards, Commissioner of the

General Land Office, has prepared a statement showing the amounts covered into recently testified for the defense in the the Treasury to the credit of the Recla-Jett-White trial at Cynthiana, Ky., have mation Fund from the sales of public lands in the several States and Territories during the years 1901, 1902 and 1903, under general strike in a packing plant at St. | the provision of the act of Congress approved June 17, 1902. ### DETERMINED TO END STRIKE.

Mine Owners Will Send Commit-

tee to Employ Joplin Men. Denver, Sept. 10.-At a conference mine owners in this city, the subject of which was the importation of miners to break the strike at Cripple Creek, it was decided to send a committee to Joplin, Mo., to secure the men needed. Permanent employment at \$3.50 a day will be offered them.

Colorado Springs, Sept. 10.—President C. E. Kennison of one of the district unions had trouble with a nonunion miner at Cripple Creek this morning and was struck. He drew a gun, but was disarmed before he could use it.

Kennison was arrested and placed in jail this afternoon on a charge of carrying a concealed weapon. He said:

### REQUEST IS IN LINE WITH POLICY FOLLOWED IN 1860.

REPUBLIC SPECIAL. Washington, Sept. 10.-The dispatch from Minister Leishman reporting the demand of the French Ambassador for the removal of the Governor of Beirut accompanied by his own urgent recommendation that the Governor "be replaced" by some one more capable of

preserving order, is apparently in line with the policy adopted after the Moslem massacre, which, in 1860, swept the Lebanon region from Damascus to villages not far from Beirut. Since that time no Lebanon Governor has been appointed except one having the approval of the Powers. This is said to have been effective in maintaining com-

parative peace. Conditions at Beirut, with its mixed population of Christians and Mohammedans, with the large commercial concerns of the Christian population, especially the educational enterprises of the Christian people, in which American interests are particularly important, make such a plan seem peculiarly adaptable to

present needs. Minister Leishman doubtless felt governed by cautious American policy in merely "urging" a change in distinction from the "demand" which he represented the French as making.

Consul Rayndal cabled the State Depart-

ment from Beirut, under date of September 9, that the situation there is quieter, and, while some of the business houses are still closed, the populace is recovering from its scare of Sunday. Further reassuring news of the Beirut situation reached the Navy Department

to-day in this cablegram from Rear Admiral Cotton of the same date as Consul Ravndal's message: "Arrival of Turkish Governor General of Damascus has restored confidence. Governor General has warned local au-

### NAZIM PASHA PUSHING

INQUIRY INTO DISORDER.

Paris, Sept. 10.-Advices received here from Belrut say that Nazim Pasha is making a thorough investigation of the causes of the recent disorder at Belrut, and that he has given assurances to the foreign Consuls that he will severely punish the guilty.

Under the circumstances, it is added, the French, British and Italian Consuls have lecided not to ask for the landing of American marines, as (contrary to the Constantinople advices) the excitement has subsided and the Christian refugees who ded are returning to their homes.

The investigation thus far made into the outbreak has shown that the police par-dicipated in looting the shops and houses, the former Vali, Reshid Pasha, being un-able to control the police.

### SHEIKH SAYS MAHOMET AROSE FROM HIS TOMB.

Vienna, Sept. 10 .- A curious story appears in the Neue Freie Presse that the Sheikh of Medina is spreading the report that the prophet, Mahomet, rose from his tomb and exclaimed in solemn tones; "Allah, save thy people!" whereupon the six guardians of the tomb expired from terror. The legend has excited Constantinople, and is regarded as an intrigue to compel the Ottoman Government to undertake an anti-Christian campaigh.

# PAID IN PENSIONS.

Decreasing, However.

High-Water Mark Was Passed a Year Ago and, in Ten Years, He Predicts, Burden Will Cease to Be Noted.

Washington, Sept. 16.-The annual report of Commissioner of Pensions Ware places the total number of pensioners now on the rolls at 996,545, of which 725,356 are soldiers and 267,189 are widows

and owpendents. Mr. Ware announces that it is not probable that the pension roll will again ross the million line, the high-water mark having been reached a year ago. Five of the pensioners are on the roll on account of the War of the Revolution, 1,116 on account of the War of 1812, 4,374 on account of the Indian wars and 13,874 on account of the Mexican War. The average annual value of each pension is now \$133. The total annual value of the Spanish War pension roll has

reached \$1,765,310. Commissioner Ware makes the followng recommendations:

Laws forfeiting the pension or right to pension of any man convicted in court of an infamous crime; prohibiting the giv ing of pensions to women who marry oldiers after the soldiers become old pensioners; a different method of examining applicants for pension, Mr. Ware stamp ing the present system as uncertain, exensive, unsatisfactory and generative of n enormous amount of political friction. the current work 100,000 cases during the last two years.

The actual total of disbursements in pensions on account of the Revolutionary War, War of 1812, Indian wars, Mexican War, Civil War and the war with Spain has been \$3,038,023,250.

It is estimated that \$15,000,000 was pald in pensions for disabilities and deaths due to military and naval service in the wars of 1812 and with Mexico, and during the time of peace prior to the War of the Rebellion, making the payments of pensions to soldiers and sailors of the War of the Rebellion and of the regular military and navy estimate since the close of said War of the Rebellion and their widows, children and dependent relatives, amount to \$2,862,26,460.

The cost of the pension system per cap-\$2.802,240,400.
The cost of the pension system per capita for 1963 is given as \$1.73, to which figure it has shrunk from \$2.24, the rate in 1893. In ten years, he says, the burden will cease to be noted.

### STERN IS EXPECTED TO RESIST EXTRADITION.

Proceedings Already Have Been Instituted to Bring Fugitive Baltimore Contractor Back.

Washington, Sept. 19.-The Government as instituted proceedings for the extradition of Leopold J. ky and Doctor J. S. Williams, the Coroner, who impaneled a jury consisting of Doctor E. L. H. Barry, Mark Conry, William Kurtz, Kirk Miner, S. Wadlington and Lee Edwards, which were unable to arrive at the cause of death.

When the body was found the weeds surrounding it had been carefully broken down as though the man had prepared the place for his death couch and all evidences of his identity had been destroyed, as he had even cut the name out of the band of his hat. The only articles of importance found upon the body were a match case, a pen knife and a pocket map of the city of St. Louis.

The man was apparently 40 years old, wore a black suit of good material, light underwear, black stockings and heavy lace shoes. Seven of his front teeth were filled with gold.

Coroner Williams turned the body over to Undertaker Jacoby, who removed it to Jerseyville, where it will be held for identification. Doctor E. L. H. Barry, Mark Conry, Willy
